

Buffered Cysteine Hydrochloride Squibb

Supplied in packages containing five 0.5-gram ampuls and individual 5-gram ampuls

Indications: **Ulcers due to TRAUMA • BURNS • CIRCULATORY DEFECTS**

IT HAS BEEN DEMONSTRATED REPEATEDLY that compounds containing the —SH (sulphydryl) radical stimulate cell proliferation. Cysteine (not to be confused with cystine) is derived from the natural sulphydryl-containing substance of the body. Wet dressings containing 1/2 per cent Cysteine Hydrochloride accelerate the healing process by stimulating granulation and epithelial proliferation and diminishing exudation. Bacterial growth is also inhibited.

The Squibb preparation is buffered because Cysteine Hydrochloride by itself makes a quite acid and therefore irritating solution. Cysteine Hydrochloride should not be applied to malignant or premalignant lesions.

MANUFACTURING CHEMISTS TO THE MEDICAL PROFESSION SINCE 1858

ANNOUNCING

•

THE RETURN TO THE ORIGINAL NAME

“FALKIRK *in the* RAMAPOS”

ESTABLISHED 1889

RECENTLY KNOWN AS DR. MACDONALD'S HOUSE

•

A sanitarium located in the delightful Ramapo Mountains of Orange County, forty miles from New York City. Easy of access by motor or rail.

A group of modern buildings surrounded by a two hundred and fifty acre estate provides the necessary freedom and desired privacy.

Rational scientific treatment and unexcelled care.

Catering to a limited group of selected cases not exceeding forty in number. Specializing in the individual care of mental cases.

The facilities of Falkirk have been recommended by members of the medical profession for almost a half century.

A New Kind of Cautey **The 10th Anniversary Complex**

• The Pistol-Grip Handle, correctly designed, with the angle fixed in position, eliminates troublesome swivel and repeated adjustments.

Striking modern beauty. One plug connects cautery and cautery light.

No external terminals to short circuit.

Controls all on one vertical plane—greater convenience and visibility.

Double range current. Low range provides delicacy of control and safeguards lamps up to 5 volts; high range provides current for 5 to 10 volt lamps.

Unobstructed light. Located above the handle but below the line of vision, the light beam casts no shadow—the field of operation is brilliantly illuminated.

Erythrol Tetranitrate Merck

useful in Acute Angiospasm

• **Angina Pectoris** •

Erythrol Tetranitrate Merck is generally useful in angina pectoris and vascular diseases, and is of particular value as a prophylactic in preventing anginal pain.

In the management of cases of hypertension in which a reduction of blood pressure is desired, Erythrol Tetranitrate has the advantage over other members of the nitrite group in that it produces a more prolonged action.

The vasodilator action of Erythrol Tetranitrate Merck sets in about 15 minutes after administration and persists for a period of from 3 to 4 hours. The preparation is supplied in $\frac{1}{4}$ grain and $\frac{1}{2}$ grain tablets.

A New Method of Treating
... **ANGINA PECTORIS**

Myorgal—a preparation of nucleosides—has been found to cause prolonged dilatation of the coronary arteries, with increased flow of blood to the cardiac muscle.

Myorgal has proved of especial value in angina pectoris, in which its continued use prevents the attacks or reduces their severity and frequency.

DOSE: One tablet, two or three times daily, increased if necessary.

General Practitioners are effectively dealing with Hay Fever

SINCE 1914 physicians have through the employment of fifteen graduated dose treatment sets of

POLLEN ANTIGENS

Lederle

added evidence to their value in the prevention and relief of hay fever attacks.

Where attacks east of the Rocky Mountains occur from August first to frost and the diagnostic skin reactions from both species of ragweed are about equal in size but when the reactions are larger than produced by other pollens, use

POLLEN ANTIGEN Lederle, Ragweed Combined.

Correspondence regarding your trouble—some cases will be given prompt attention.

**LEDERLE LABORATORIES
INC.**

NEW YORK

The LEDERLE LABORATORIES maintain a Department of Allergy supervised by experts who welcome correspondence from physicians on all questions pertaining to Hay Fever, Asthma, Dermatitis, Dermatomycoses, etc. in any locality. A condensed practical Manual on Hay Fever will be sent physicians upon request.

POISON IVY EXTRACT *Lederle*
provides an effective means for the control of Ivy poisoning.

ENLIGHTENED SELF-INTEREST

prompts many physicians to specify MEAD PRODUCTS.* First, because they are good reliable products, skilfully made for their specialized uses. Second, because Mead Johnson & Company believe in and faithfully practise the principles that redound to the medical profession's own interest, for example: (1) Mead products are never advertised nor radio-broadcast to the laity, (2) Mead Products carry no dosage directions on or in packages, (3)

Mead Johnson & Company supply no circulars to druggists to be handed to patients, (4) Mead Johnson & Company do not hire space in drug store windows for displaying Mead Products to the public, (5) Mead Johnson & Company do not circularize new mothers via birth lists, (6) Mead Johnson & Company refer all inquiries for medical information from the public to the family physician.

It is interesting to note that a fair average of the length of time an infant

*When more physicians specify MEAD'S,
more babies will be fed by medical men.*

receives Dextri-Maltose is five months: That these five months are the most critical of the baby's life: That the difference in cost to the mother between Dextri-Maltose and the very cheapest carbohydrate at most is only \$6 for this

entire period—a few cents a day: That, in the end, it costs the mother less

to employ regular medical attendance for her baby than to attempt to do her own feeding, which in numerous cases leads to a seriously sick baby eventually requiring the most costly medical attendance.

MEAD JOHNSON & COMPANY EVANSVILLE, INDIANA, U. S. A.

*Dextri-Maltose Nos. 1, 2 and 3. Dextri-Maltose with Vitamin B. Mead's Viosterol in Oil. Mead's Viosterol in Halibut Liver Oil (liquid and capsules). Mead's Cod Liver Oil with Viosterol.
